Stellar warranty.
All in 48 Hours.

It's our guarantee.

If you see it in this book, we stock it. That's our mission: to ship every product in our catalog in 48 hours. No fuss, no hassle, just office furniture in 48 hours.

Anvil

The Anvil desking collection gives your space a refreshing image that encourages freedom of thought and inspired decision making. The Anvil collection features integrated power and accessories, streamlining your work environment by providing easy access to the tools you need to be productive.

Action Stations

Whether you need individual offices for concentrated work or team based work areas to enhance interaction, Anvil workstations are a superb collection of desk and workstation elements. There is no reason why your office furniture should not be as architecturally appealing as your offices – Anvil is a statement in style.

High Density Desking

Anvil is an intelligent approach to office system design. It's modular structure guarantees adaptable layouts and solutions that support a multitude of ways of working, while providing concealed routing of services.

Precision Design

Great office environments are shaped by clean furniture design. Anvil gives you a framework that will support dynamic changes in workplace technologies and evolving work practices.

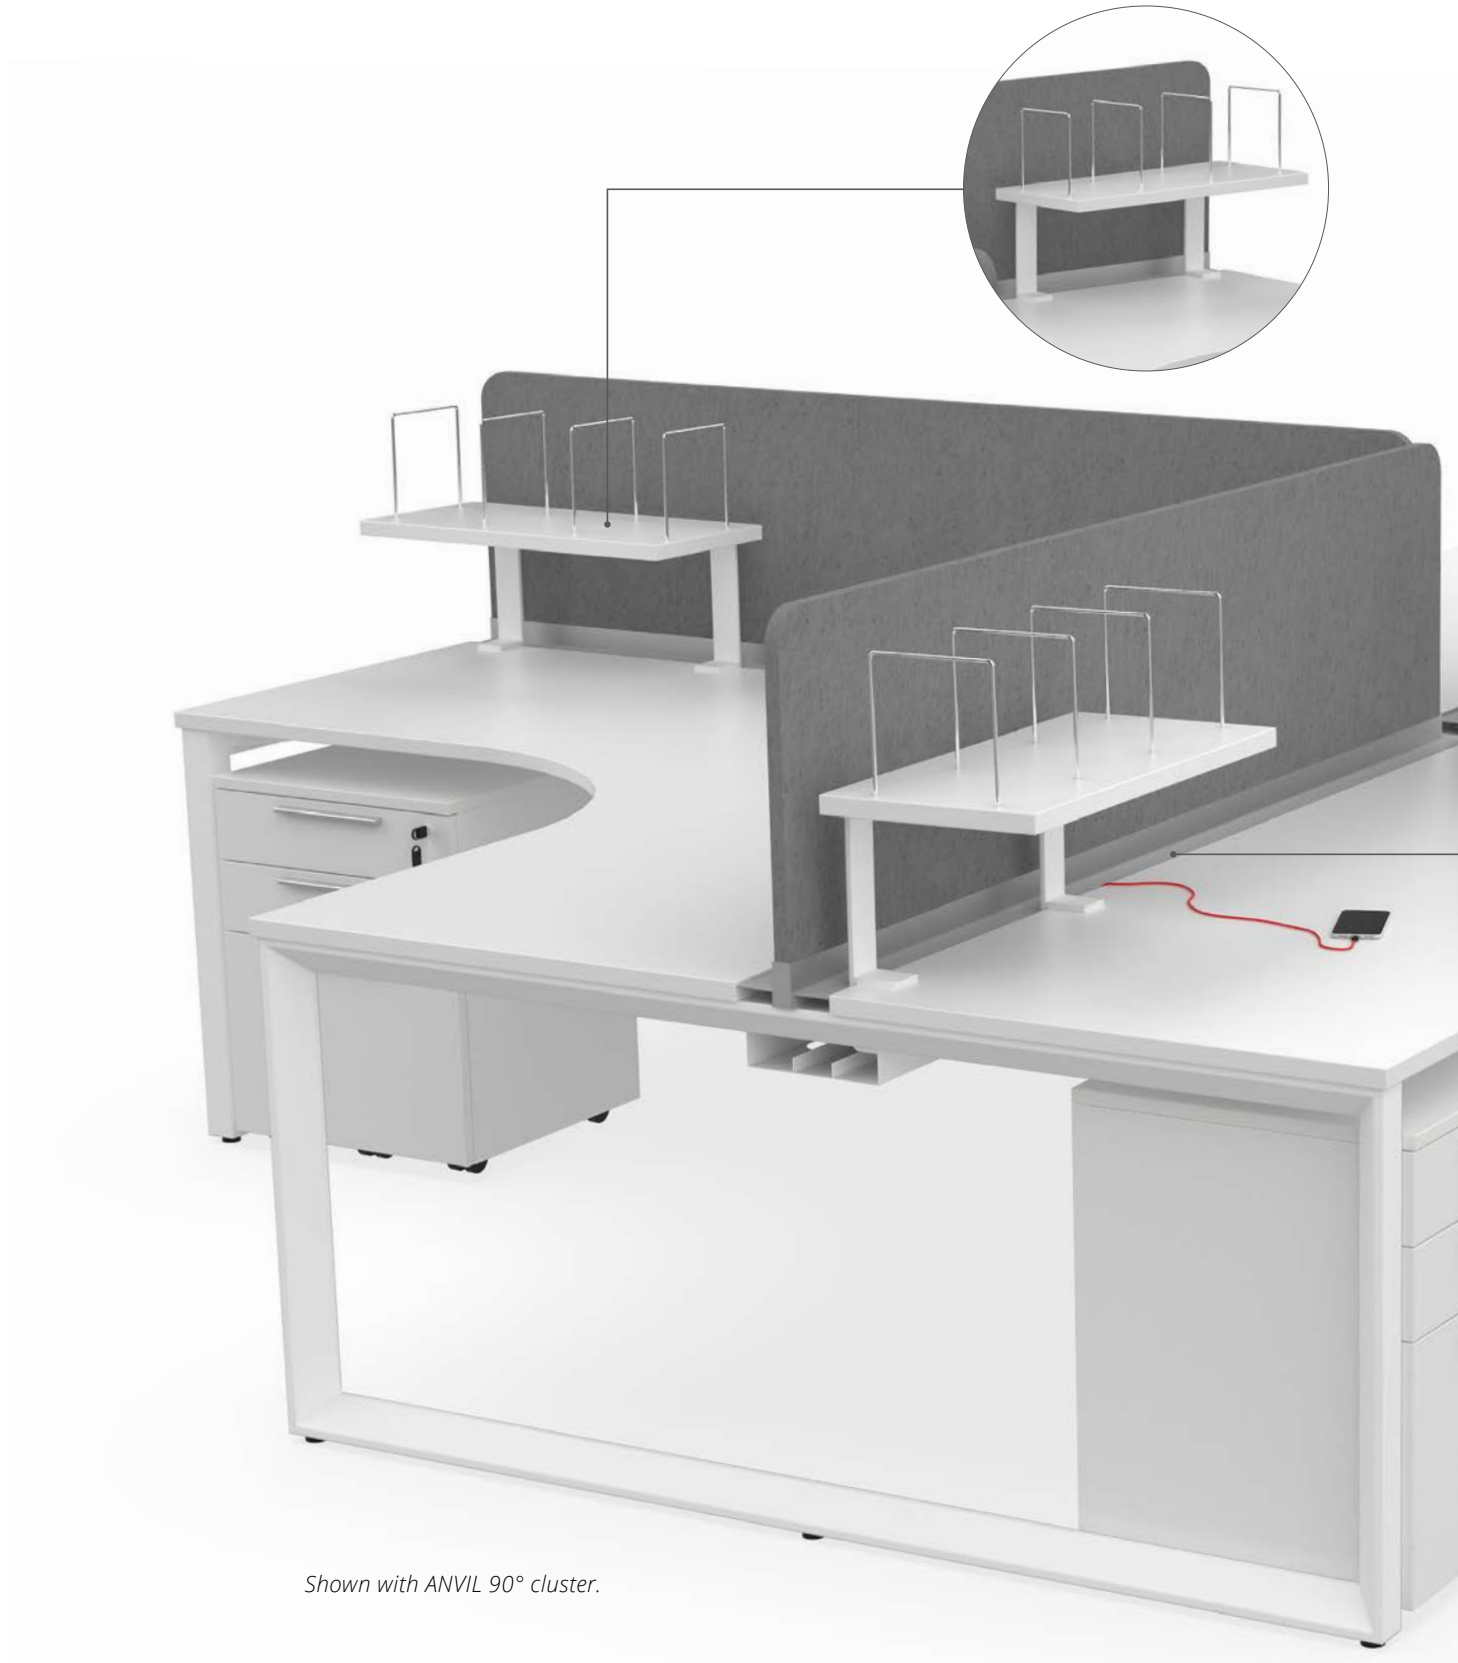
Works with clamp on shelves and monitor arms.



Shown with ANVIL 90° cluster.

Optional hardwire or
softwire power system.

Hide your cables all the way to
where you need them.

Axis

The Axis collection cultivates a sense of community while supporting the rapidly changing technologies and work practices of today's dynamic workplace. The Axis collection features integrated power and accessories, streamlining your work environment by providing easy access to the tools you need to be productive.

Axis Straightline

Axis long shared desk combinations are well complimented by matching storage & meeting tables. Our chairs with coloured fabric seat covers & fabric seat toppas on the mobiles, help you make the space really yours.

Create.

90°

Revitalize your traditional office space with refreshing alternatives to conventional 90° layouts, giving you the flexibility to design your work environment to your specific needs. By using frame-mounted screens in high-traffic areas, you can create a functional and stylish space while retaining convenient access to power and data functions.

120°

Transform your team environment with the innovative Axis 120° layout. Designed with collaboration and productivity in mind, these workstations offer thoughtful design. With a unique layout that eliminates direct face-to-face positioning, distractions are minimized, allowing for maximum focus and enhanced collaboration among team members.

Our Mission
TO SHIP EVERY PRODUCT IN OUR CATALOGUE TO YOU WITHIN 48 HOURS.

Agile

Agile is a robust electric height-adjustable system, perfect for today's dynamic work environments. From bustling office spaces to versatile meeting rooms and even the comfort of your own home, Agile's understated simplicity seamlessly integrates into any setting. As we continue to prioritize wellness and productivity, sit-stand systems like Agile are becoming a staple in collaborative workspaces.

Private Spaces

Flexibility, collaboration, and technology-based work flows require active, streamlined workspaces designed for the digital age. Agile fits the bill, perfect for both the CEO's office and for designated quiet zones inside a larger open office plan.

Large Office Spaces

Drab and isolated office cubicles are rapidly (and thankfully) becoming a relic of the past, making way for large, open office systems that foster collaboration, shared learning, and a strong social culture. Fixed height and height adjustable desks offer a contemporary, minimalist look whilst accommodating the need for flexibility and movement during the workday.

Configurations

Have it your way! Choose from a wide range of configurations, including curved corner 90 and 120 degree workstations, in back-to-back or individual layouts. The right layout for a space is critical in maximizing available real estate as well as setting up your people in the right environment to be successful.

Agile Single Sided

STANDARD FEATURES

- White or black powdercoat frame
- Winder or electric height adjustable
- Overload operation protection
- Electronic screen displaying exact height with 4 pre-set height settings
- Double rail support for extra stability and strength
- Wide base foot and leveller for adjustment
- Load capacity: 225 lbs
- Winder speed adjustment: ¼"/turn
- Electric speed adjustment: 1"/s
- Gross weight: 80 lbs
- 10 year frame guarantee
- 5 year motor guarantee

Standard frame sizes accommodate worksurface sizes

- 48"w x 24"d
- 48"w x 30"d

WORKSPACE 48
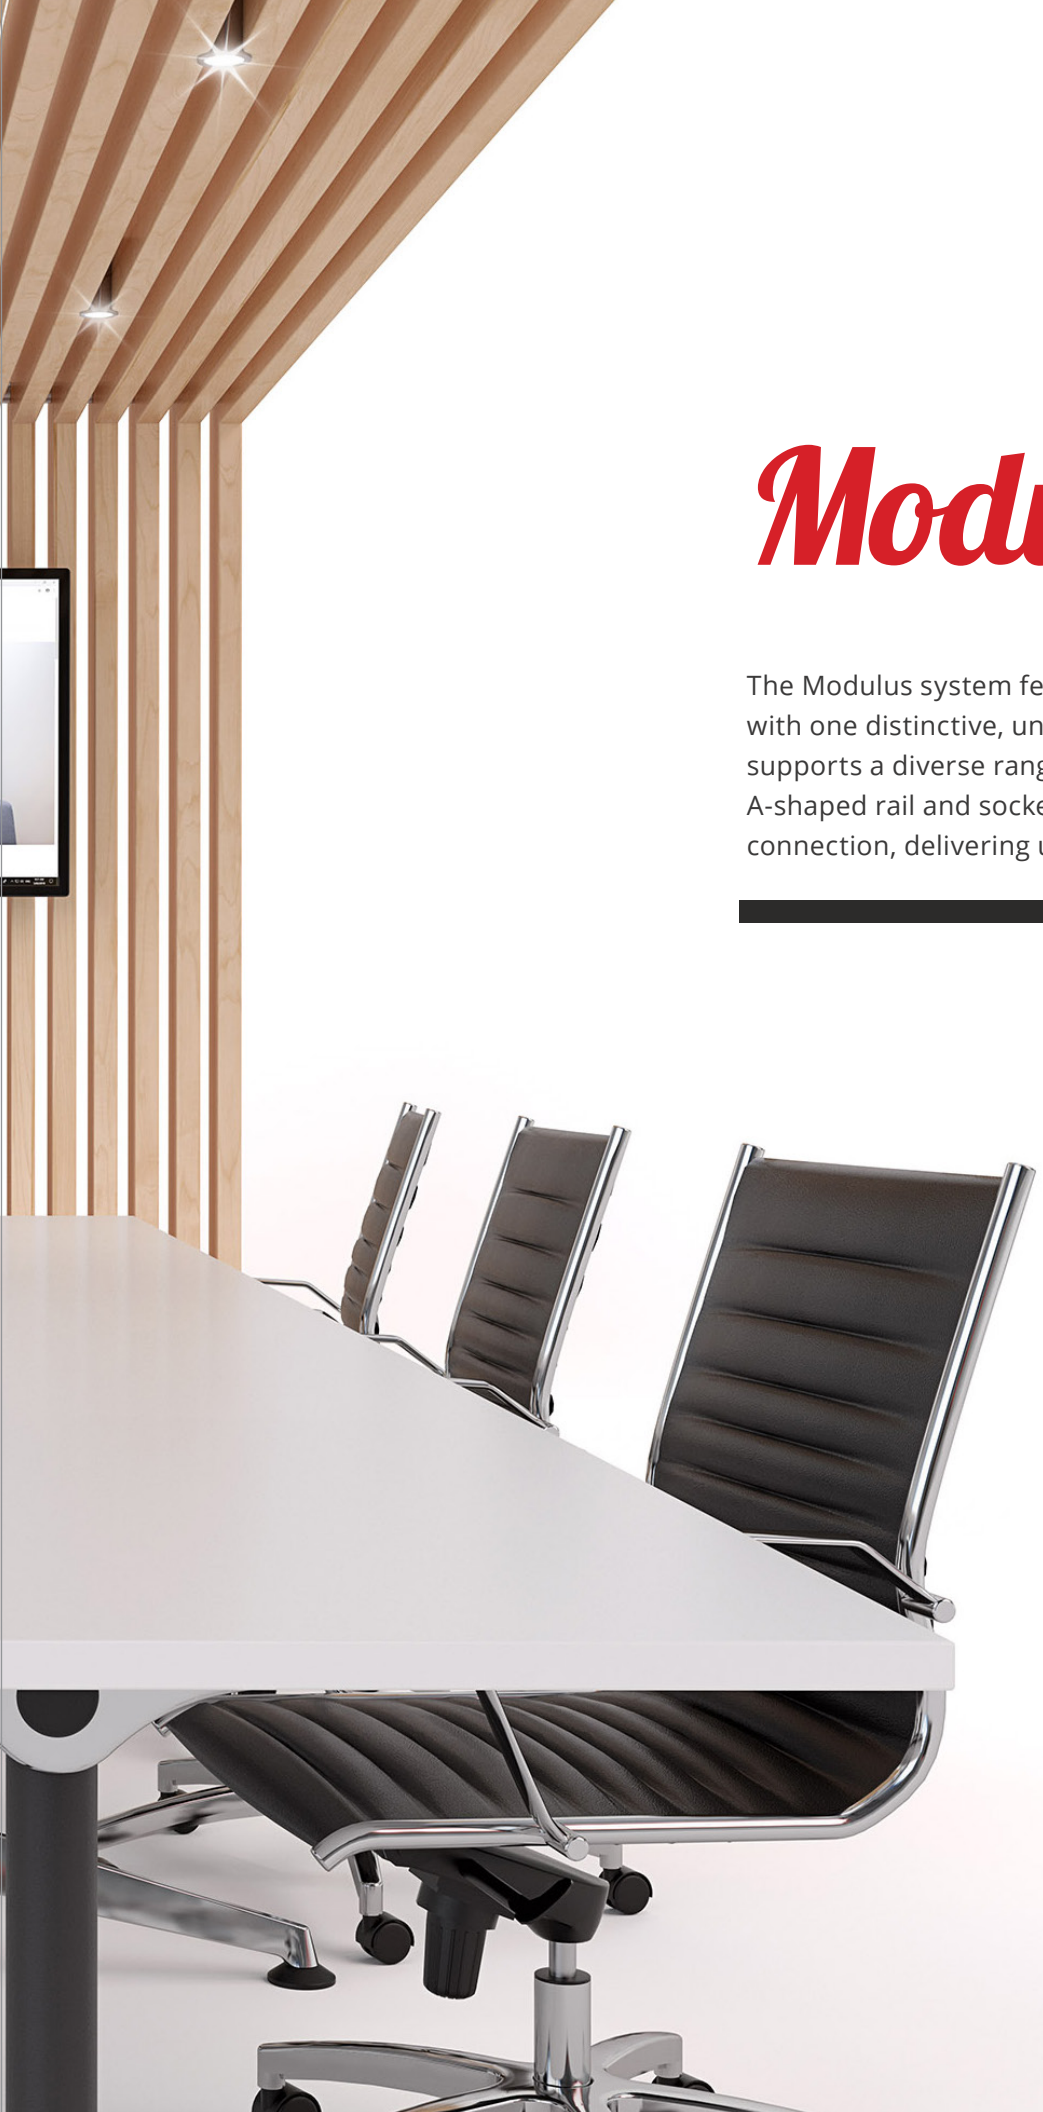
Why We're Here
WHY WE ARE CALLED WORKSPACE48

Modulus

The Modulus system features a sleek and timeless design with one distinctive, universal leg style that effortlessly supports a diverse range of table designs. The robust A-shaped rail and socket system ensures a secure and sturdy connection, delivering unparalleled strength and stability.



Showing: Modulus Twin Post, double span frame with 144" x 48" worktop and Interact power module.

Simple Beauty

Featuring simple yet timeless aesthetics, the Modulus series fits seamlessly into an array of spaces. Elevate your experience with the convenient Interact power module, providing seamless integration of all your power and data needs.

Collaboration

Modulus is a versatile table system that helps people collaborate, communicate and exchange ideas. They can be static tables of any size or they can be self-contained modules that move and adapt easily to fit the space or task at hand.

Sophistication

Modulus tables are designed to adapt to any setting, with finely crafted cast aluminum components and carefully engineered mechanisms that provide both style and function. The elegant finish of each component adds to the overall aesthetic, while the carefully designed mechanisms deliver an experience to remember.

Working Together

Tables are most powerful when used together. Modulus Flip tables can be used in any combination, which creates endless opportunities for constructive interaction in classrooms, training rooms & meeting rooms. All Flip tables come with durable locking casters to ensure easy configuration of new layouts.

NEED SOME EXPERT HELP WITH YOUR PROJECT?

The Workspace48 Team has some of the best and brightest minds in the office furniture ~~industry~~ Galaxy! We can assist you in making recommendations on the best furniture for your client's budget and requirements.

Client Projects

There are a lot of serious things in life but office furniture shouldn't necessarily be one of them. We enjoy what we do and we love working with our dealer reps. Nothing makes us happier than when they send us a picture of a completed installation. Have a look out some of our favourite projects over the following pages!
