HEIGHT ADJUSTABLE
Kinetic

At home in both open plans and private offices, Kinetic brings agility and movement, for healthier and happier workspaces.

The most affordable, highly functional height adjustable workstation on the market, with a quick and quiet motor, adjusted with push-button controller.

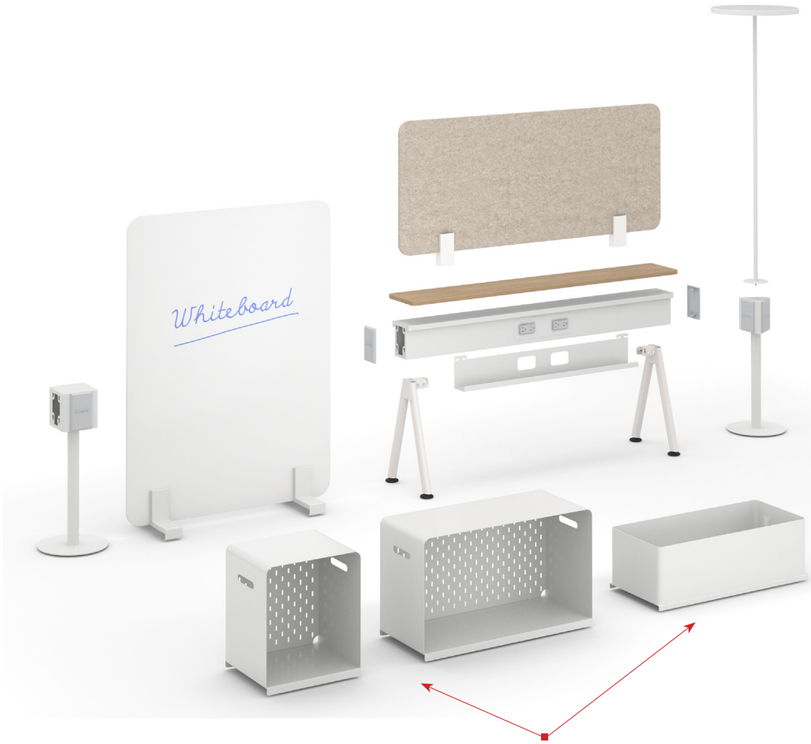

Power+Data Beam

Array

POWER/DATA BEAM SYSTEM - ARRAY

A full spectrum of options for Array is available, from writeable, magnetic whiteboards to tackable PET screens and neighborhood lighting.

With the optional Premium Surface (available in 4 laminate colors), additional accessories are available, including stackable storage boxes and planter boxes.

Storage and Planter Boxes are also available with Premium Surface

Design your Array beam with all the components to make fully functional neighborhoods in any space. No-tool assembly takes 10 minutes or less per beam.

Array's flexibility allows configuration of open plan, training and collaborative spaces that are powered up, functional and engaging.

120° Array with Premium Surface, 3- and 4-way posts, planter boxes, screens and neighborhood lights, plus Kinetic 120° desks and Milo storage.

Four Array beams with Premium Surface, small and large stackable storage boxes, planter boxes, whiteboards, screens and neighborhood lights, plus Kinetic height adjustable desks.

POWER/DATA BEAM SYSTEM- **ARRAY**

Array beams with Premium Surface in T-layout, including screens, storage and neighborhood lighting, plus Kinetic desks and Milo storage.

Four Array beams with screens, plus 8 Kinetic height adjustable desks with Mochi undermount personal storage.

Motion®Office prioritizes comfort, with a multi layered, supportive foundation.

Motion®Office modular seating is built with layers of comfort, for all-day seating that supports the body, naturally.

Motion® modules offer premium comfort with high-resilience foam and pocket springs that give rest and relief to your body – whether you are working, socializing, waiting or just relaxing.

Our comfort promise is backed up with a 10-year warranty. Review the terms in our Warranty document.

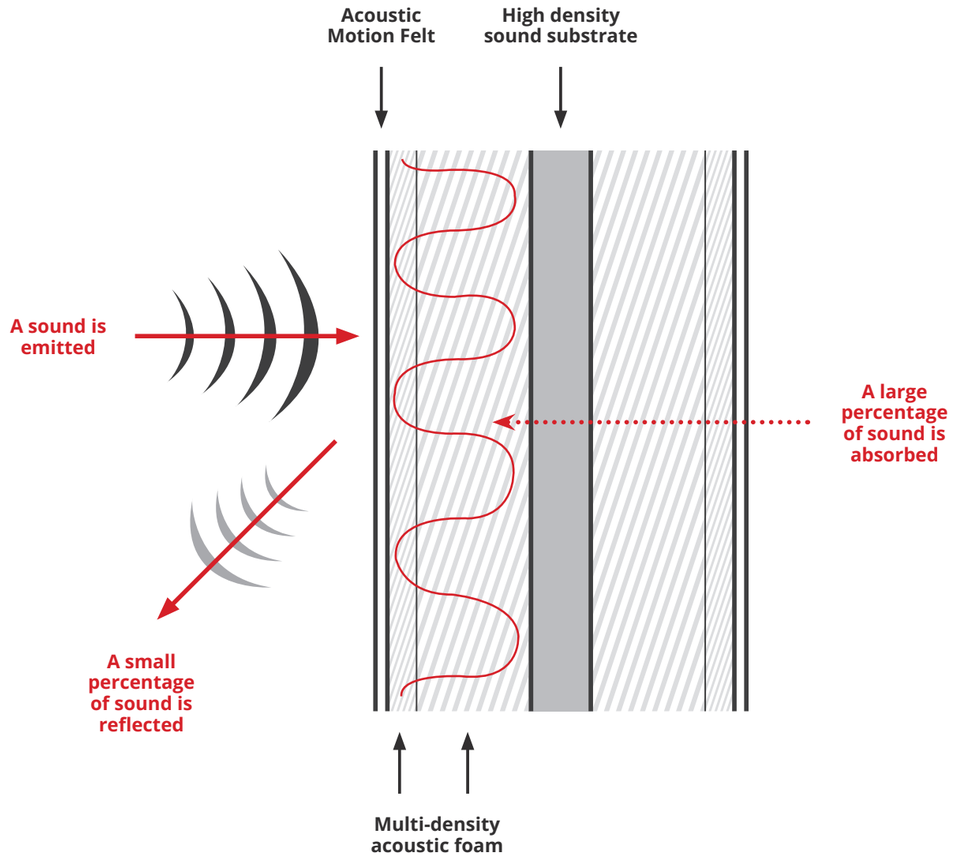

Unlike competitor products where fabric covers foam atop hollow plywood, Motion®Office foam sits on a web sprung platform, supporting the body more effectively and giving greater comfort –

Standard wall materials absorb 3%, MotionOffice has been tested and absorbs 76% of sound waves!

Imagine standing in the middle of a room with all concrete surfaces and one open window, and you blow a loud whistle. The sound that hits the open window passes right through. The sound that hits the concrete surfaces in the room begin to reflect back. The NRC (Noise Reduction Coefficient) of the open window would be 1.00 which is the absence of sound reflection. The NRC of concrete is .03, indicating that 97% of the noise that hits the concrete surfaces will reflect back off the surface. The NRC value of a surface simply denotes its ability to absorb vs reflect sound. The higher the NRC value, the stronger the sound absorption and the lower the sound reflection in the room.

MotionOffice panels have an NRC rating of 0.76 which means that 76% of the sound wave entering into the material will be captured and converted. MotionOffice dramatically contributes to reduction of noise bleed in open plan environments!
